

COLLISION REPAIR EDUCATION™ FOUNDATION

Dear I-CAR Volunteers, Instructors, and Staff:

Thanks to the generosity of I-CAR volunteers, instructors, and staff nationwide, the Collision Repair Education Foundation and the Baudoux family are pleased to announce that the Lon Baudoux Legacy Scholarship has become the organization's first endowed scholarship. With over \$34,000 contributed, the interest and dividend income from this permanently endowed fund will allow us to provide over \$1500 in scholarships each year and every year in the future. Again, this was only made possible through the generosity of the I-CAR Instructors, volunteers, and staff that donated and helped to honor our friend and colleague, Lon Baudoux.

The Lon Baudoux Legacy Scholarship was created in memory of I-CAR Development Manager Lon Baudoux, who passed away suddenly on November 11, 2008. Lon had been an employee with I-CAR since 1997. Prior to that, he taught I-CAR classes for over a decade. In addition to those roles, Lon also traveled the country teaching Instructor Qualification Workshops to school instructors, improving their teaching abilities and giving them the tools to turn out great collision repair students. Lon was a great asset to I-CAR and to his local community. He highly valued education, especially for secondary and post-secondary students studying collision repair. One example of his dedication is that in his local hometown of Saginaw, MI, he took the local collision repair program under his wing and made sure that the school, instructors, and students had the best possible opportunities to enhance their educational experience.

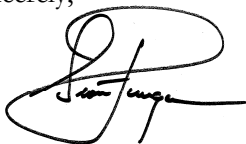

Several I-CAR instructors banded together to create this very fitting memorial to Lon to honor all he has done for technical education of the collision repair industry. The result of their efforts was to create a scholarship that supports high school or college students pursuing a career in collision repair and committed to public service in their community. Collision repair students have been the recipients of the Lon Baudoux Legacy Scholarship since May 2009 and we look forward to helping additional students in the future, continuing Lon's legacy of professionalism and public service.

During each January, Lon Baudoux Legacy Scholarship applications are distributed and the winners are announced in April. This scholarship will continue thanks to the generosity of our donors. Even though we have reached the endowment threshold that allows the Education Foundation to offer this scholarship forever, we ask for your consideration to help build the amount even higher and support even more students.

Thank you to everyone who donated to the Collision Repair Education Foundation and helped achieve this significant milestone. We hope you will continue your commitment and invite others to join us in honoring Lon by making a tax-deductible gift to the Lon Baudoux Legacy Scholarship. You may donate through a one-time gift by check, credit card, or PayPal at collisioneducationfoundation.org. You may also make a direct contribution through your fixed payroll deduction with I-CAR.

We hope you will continue to honor Lon's legacy of service, support, and positive influence on the collision industry repair through a donation to the Lon Baudoux Legacy Scholarship Fund. Thank you!

Sincerely,

Scott Kruger, Executive Director
Collision Repair Education Foundation
