

# I-CAR Equivalency Test

## Announcement Guide for the Hearing Impaired

### Background

---

I-CAR Equivalency Tests are an opportunity to demonstrate your knowledge in a specific area, avoid redundant training, and achieve your role-specific I-CAR Platinum Individual designation.

### Getting Started

---

Make sure you have checked in with the Proctor.

Fill out a Student Registration Form if you need to change your I-CAR information.

Fill out one Scantron sheet for each test. Required information is:

1. I-CAR ID#
2. Name
3. Proctor Name
4. Program Test Version (on each test book)
5. Date

Security Question information may be filled in on one Scantron, if desired.

### Process and Scoring

---

1. Tests will remain in your envelope until start time is announced.
2. You will have two hours to complete your tests.
3. You may complete your tests in any order.
4. The classroom will remain quiet during the test period. The Proctor is not allowed to help you on your tests.
5. When finished, return all materials; test books, Scantrons, and envelopes to the Proctor for checkout.
6. Exit the room quietly.
7. Your score is the number of correct answers. 80% or better is required to pass.
8. Results will be posted on your I-CAR training record.

Make sure you have no electronic devices, books, notes, or food available. This avoids distractions and respects the others also taking tests.

Future I-CAR classes, committee meetings, or other news may be announced. See Proctor for details.

Proctor will ask for questions.

When signaled, you may open and begin your tests.
