

Industry Training AllianceSM Student Application

Application Process

The purpose of this application is to verify that the training program you have participated in is eligible for the I-CAR[®] Industry Training Alliance program. If the training program is recognized, points may be awarded which apply to the I-CAR Gold Class Professionals[®] and Platinum Individual[™] programs.

This application must be printed and either mailed or faxed to the I-CAR Education Foundation:

I-CAR
Attn: Rudy Aranda
5125 Trillium Blvd.
Hoffman Estates, IL 60192
rudy.aranda@i-car.com
Phone: 800.422.7872, Ext. 288
Fax: 847.590.1215

Please complete the following checklist before sending in your application to ensure that everything is included. If the necessary paperwork and payment are not properly submitted, the application will be returned to the student.

Application Checklist

- Student's career and technical school or college transcript
- Payment (either check or credit card number)
- Instructor signed application (**Note:** Instructors must initial that the student has completed the program and received an I-CAR Live CD-ROM)
- Check this box to verify that you have received a student CD for each program corresponding to an I-CAR point for which you are applying

NOTE: I-CAR points do not need to be applied for immediately after graduation. We encourage students to use earned I-CAR points as a resume builder. The majority of the applications we receive are paid for by employers.

Please save a copy of this application and all corresponding documents (including the school transcript) for your records.

Understanding the 5&2, 10&2 Gold Class Professionals™ and Platinum Individual™ Program Requirements: How does it relate to I-CAR® Industry Training AllianceSM Students?

QUESTIONS RELATING TO STUDENTS _____

How will the new plan affect my participation in the Alliance?

Students at Alliance career and technical schools and colleges will continue to be able to apply training earned to both the Gold Class Professionals and Platinum Individual designations. Alliance school students also have the additional benefit of being able to apply some of the training earned in school towards ongoing training requirements as well as the initial requirements for either Gold Class or Platinum. Students may apply for all of the needed points in one application or spread the redemption of points over two years from the initial application.

Gold Class Professionals: 5 (initial) + 2 (ongoing) + 2 (ongoing) = **9 points**

Platinum Individual: 10 (initial) + 2 (ongoing) + 2 (ongoing) = **14 points**

The above example shows how many points are needed to cover two years of point requirements for the Gold Class Professionals and Platinum Individual programs. By applying for 9 points (for Gold Class) or 14 points (for Platinum) in the initial application, a student would essentially be prepaying for the initial point requirement and 2 years of ongoing training. Alternatively, students may apply for the initial point requirement (5 or 10) in one application and 2 points of ongoing training annually for two years after the initial application.

When should I apply for my points?

In order to make the most of your points earned through the Alliance, it is recommended that you submit your first application just after graduation to increase employability. You may also consider waiting to apply until you find employment as some employers will pay for points.

I will qualify for many points upon graduation. Under the new requirements, how many points should I apply for?

As shown in the example above, applying for 14 points would qualify you for the Platinum Individual program plus give you 2 years of ongoing training. As the Platinum designation requires more points than the Gold Class designation, you would provide an added benefit to your employer with these points as well.

What is the difference between I-CAR credit and I-CAR points?

After the 2-year time clock has expired, students may choose to redeem training programs to appear on their transcript. This may be beneficial in situations where the employer has specific training requirements that you have already completed, such as in the instance of OEM training requirements. Note that any training redeemed after the 2-year time clock has expired will not count for ongoing training, but will appear as training successfully completed on your I-CAR transcript.

What will happen if I want to apply for more than 9 or 14 points?

I-CAR training is well-recognized throughout the collision industry and adding training to your transcript will position you positively in your career. Any points redeemed beyond 9 (for the Gold Class designation) or 14 (for the Platinum designation) will not count towards ongoing training requirements, but they may count towards training required by future employers.

What if I decide I want to redeem training more than 2 years after my first application?

Any I-CAR training taken in an Alliance career and technical school or college can be added at any time to your transcript by applying. Note that any training redeemed after the 2-year time clock has expired will not count for ongoing training, but it will appear as training successfully completed on your I-CAR transcript.

I-CAR also offers Online Training, which offers self-paced training 24/7 in vehicle-specific and general collision repair concepts. Please visit www.i-car.com for complete information on all I-CAR delivery methods.

Will points earned through the Alliance apply to a degree from the University of Phoenix Online?

Yes, points earned through the Alliance can be used to earn an Associate or Bachelor degree with the University of Phoenix Online. Unlike points for the Gold Class Professionals and Platinum Individual programs, there is no time restriction on applying training credit towards a degree with the University of Phoenix Online.

If you have more questions or need some assistance to determine how this change will affect you, please contact **I-CAR at 800.422.7872.**
