

# AN INTER-INDUSTRY COMMITMENT TO SAFETY

I-CAR, the Inter-Industry Conference on Auto Collision Repair, is an international, not-for-profit organization dedicated to training everyone in all segments of the collision repair industry. Formed by the industry in 1979, all I-CAR activities, programs, services, and resources focus on supporting industry professionals in achieving a high level of technical knowledge through access to training. In addition to developing and delivering technical training programs, I-CAR also supports dialogue among those interested in issues related to proper collision repair.

The organization's primary funding is derived from training revenue, with courses currently being delivered throughout the United States, as well as being licensed for distribution in Canada, Australia, and New Zealand.

## Vision & Mission

The I-CAR Vision is that every person in the collision repair industry has the information, knowledge and skills required to perform complete, safe and quality repairs for the ultimate benefit of the consumer.

The I-CAR Mission is to deliver increasingly accessible, on-demand and relevant education, knowledge, services and solutions for the Collision Repair Inter-Industry.

## Training

The I-CAR Professional Development Program™ offers performance-focused training tailored to the specific roles of professionals within the collision repair inter-industry and delivered in a variety of formats to meet the needs of students:

- **Classroom Training** – Live, instructor-led classroom training hosted at locations throughout the United States
- **Virtual Classroom Training** – Live, instructor-led training hosted online
- **Welding Training and Certification Series** – On-site instructor-led training, coaching, hands-on practice, and the industry-recognized I-CAR Welding Certification Test
- **Online Training** – Self-paced online training available 24/7
- **Specialty Training** – Customized training for vehicle manufacturers

I-CAR training reaches a broad base of students within six inter-industry segments — collision repair; insurance; vehicle manufacturers; equipment, tools, and supplies; education, training, and research; and related industry services — who learn the latest methods of efficient, high-quality repair.

## Recognition

The I-CAR Platinum™ Individual designation and Gold Class® Professionals business designation signify achieving some of the highest training levels currently recognized in the collision repair inter-industry, along with a commitment to quality by staying up-to-date with collision repair technology through annual training.

## A Commitment to Quality

I-CAR has a strong foundation of support that includes over 2,000 volunteers who participate through more than 300 local committees. The organization also employs over 450 part-time program instructors who, like the volunteers, are committed to delivering high-quality training to their local areas and beyond. The commitment of I-CAR Volunteers and Instructors is largely where the heritage and traditions of I-CAR reside, and is at the heart of providing training to the auto collision repair inter-industry for over thirty-five years.
